EXPLANATORY

The names listed in this directory are taken from the files of the Committee on Friendly Relations Among Foreign Students. The Committee's records are compiled from reports to them from registrars throughout the country.

Please note, however, that these registrar's reports are primarily data on **foreign students** attending American colleges and universities. And in many cases, although requests have been made, the Committee has been unable to receive reports on American citizens of oriental extraction. Hence our compilation is necessarily incomplete in respect to the **nisei student** listings.
